for almost two centuries biblical scholars have operated in the shadow of de wette s judgement that the books of chronicles are derived from and hence historically inferior to the books of samuel kings without disputing de wette s historical feel for the unreliability of the chronicler graeme auld suggests a fresh model for understanding the interrelationships of these two accounts of the bible s kings each had supplemented quite independently of the other a common inherited text that had told the story of judah s kings from david to the fall of jerusalem he reconstructs and explains this shared source this fresh study shows that the author of samuel kings was no less partisan than the chronicler when retelling older traditions of israel and judah sometimes the two books diverge considerably as over king hezekiah at other times the differences are slighter yet quite as telling after forty shared verses of petition in solomon s prayer at the dedication of the jerusalem temple the version in kings ends by appealing to the exodus and mentioning moses by name but chronicles as often more traditionally names david and quotes a psalm
